

Diabetes: Nature or Nurture?

Robert Hegele, MD, FRCPC, FACP

Director, Blackburn Cardiovascular Genetics Laboratory, London Regional Genomics Centre at Robarts Research Institute, Professor, Schulich School of Medicine at the University of Western Ontario

When: Thursday, February 16, 2012

Time: 2:00 pm - 3:30 pm

Where: Senate Chambers (UC 1001)
Lakehead University, 955 Oliver Road

To RSVP by Feb.13: Marcello Bernardo, bernarma@tbh.net

This event is FREE, but space is limited.

Abstract: The human genome project has allowed scientists to read the DNA sequence like a grocery store barcode. What does today's technology say about the role of genetic factors in common diseases, like diabetes or heart attack? Which is more important in disease risk - genes or lifestyle and the environment?
