Education:

- Doctor of Medicine, Chelyabinsk State Medical Institute, Russia, June 1994
- Residency in Diagnostic Radiology with board Certification, Hadassah Hebrew University Medical Center, Jerusalem, Israel, 1998-2003
- Visiting Scholarship in Musculoskeletal Radiology, University of Chicago Hospitals, Chicago, IL, USA, September - November 2004
- Clinical Fellowship in Musculoskeletal Radiology, McMaster University, Hamilton, Ontario, Canada July 2007- June 2008

Appointments and Affiliations:

- Clinical Scientist, Thunder Bay Regional Research Institute, Thunder Bay, ON, Canada, September 2009
- Assistant Professor, Clinical Sciences Division, cross appointment Lakehead and Laurentian Universities, Northern Ontario School of Medicine, Thunder Bay, ON, Canada, September 2009
- Cancer Care Ontario Research Chair, September 2009
- Staff Radiologist, Diagnostic Imaging Department, Thunder Bay Health Sciences Centre, Thunder Bay, Ontario, Canada, September 2009

Research Areas of Focus:

Throughout Dr. Kisselgoff's clinical work, imaging of musculoskeletal system and cancer imaging have been of special interest. He serves as a staff Radiologist at Thunder Bay Regional Health Sciences Centre parallel to his Clinical Scientist position with TBTRI.

Dr. Kisselgoff will be one of the Clinical Translation Research members. Recently he has started to participate in projects run by Probe Development & Biomarker Exploration Theme Team as well as he will be engaged with projects of Imaging Guided Interventions Theme Team at the Thunder Bay Regional Research Institute. This will include MRI guided HIFU treatment and applications of Diffusion MRI techniques in Whole body MR imaging of cancer patients.
